

Sinclair Broadcast Group's recent actions are a prime example of what can go wrong with Big Media and the monopolies of such. If we as a county are continually subjected to the bias of the the large media corporations we will cease to be a democracy and our freedoms will disappear. I feel we are now already being heavily subjected to the opinions of the press and that true unbiased journalism is a thing of the past. Sinclair Broadcast Group must be stoped and all other media Super Powers must be stoped in their endeavour to control the outcome of political and social issues.

Thank you.
